

plein-air

Summer Plain-air Painting Workshops with Liza Visagie

Join us for outdoor painting this summer.

Outdoor painting requires a painter to render in shorthand the essence of a scene. It requires a set of skills of acute observation, simplification, technical mastery, maturity and intellect, to respond not just aesthetically but emotionally and to expand on our visual and felt understanding and experience of the natural world around us.

Come out this summer and learn how to apply sound oil painting techniques while enjoying the natural splendor of one of Vancouver's hidden secrets, Iona Beach Regional Park.

From a selection of marshland to ocean views to paint, sign up for these two day, intensive small group workshops.

Stay updated with Liza by subscribing to RSS feeds at www.lizavisagie.com. The weekly blog is addictive.
